Dennis R. Downs, Director
Division of Solid and Hazardous Waste
Utah Department of Environmental Quality
P.O. Box 144880
Salt Lake City, Utah 84114-4880

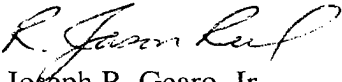

Dear Mr. Downs:

On behalf of U.S. Army Dugway Proving Ground (DPG), I am pleased to submit this request for a Class 3 Modification to the existing Resource Conservation and Recovery Act (RCRA) Operating Permit # UT3750211259, September 2005. The proposed modification includes the following:

- Insertion a reference to the DPG Title V Operating Permit for the operating limits for open burn and open detonation in Module V.
- Deletion of the requirement for site investigation plan within 180 days of permit approval.
- Revision of the Dugway Thermal Treatment Facility (DTTF) site figure for accuracy: to reflect the correct number of 90-day sites.
- Revisions to the DTTF inspection forms (Attachment 3-3) to indicate which items require inspection each day in the event that multiple events per day occur and those items that require inspection prior to each event.
- Revision of Attachment 3-4 (Training) for consistency with recently approved modification to Attachment 2-4 (Training).
- General editorial comments to Module V and Attachments 3-1 and 3-5.

Please direct your staff to contact John Bate of my staff at (435) 831-3591 with any questions or comments regarding this matter.

Sincerely,

JR Joseph R. Gearo, Jr.
Director
Directorate of Environmental Programs
